

AMENDMENTS

IN THE SPECIFICATION:

Page 1, line 1: Please delete the word on this line as follows:

Description

Page 1, line 4: Please add: --Field of the invention--.

Page 18, line 32 – Page 19, line 7: Please replace the paragraph with the following paragraph:

The configuration of the invention is not restricted to the exemplary embodiments presented above. By way of example, it is not necessary for the shielding housing 3 to provide electromagnetic shielding of the module. Instead of a shielding housing 3, an arbitrary other receptacle structure having a receptacle opening for receiving an optical module may also be provided. Furthermore, in alternative configurations, the spring mechanisms represented may be formed differently and elsewhere. Equally the unlocking mechanism 2 11 with the formation of a lever is to be understood merely by way of example. Other unlocking mechanisms which provide raising or lowering of the module 1 in the z direction may equally be provided.
